Answers

1. **D.** Only 23% of teen girls in Canada have even heard of HPV. Scary stuff considering it is the most common STI in the world. source: <http://www.pubmedcentral.nih.gov/articlerender.fcgi?artid=2528827>
2. **D.** HPV stands for Human Papillomavirus.
3. **C.** 3 in 4 teens will get at least 1 HPV infection when they grow up if they don't protect themselves, regardless of who they are and what they do.
4. **D.** Getting your HPV vaccination is a good way to protect yourself from getting HPV when you grow up.
5. **B.** The easiest place to get your HPV vaccination is at your school when you're in Grade 8.
6. **C.** HPV is the main cause of cervical cancer.
7. **C.** Lexi needs all three HPV shots to be fully protected. If she misses one, she should contact her Public Health Unit to find out about make up clinics.
