The 2012 Physician Services Agreement (PSA) between the Ministry of Health and Long-Term Care (MOHLTC) and the Ontario Medical Association (OMA) includes enhancements to the Home Visits Special Premium. These changes are found in Appendix D ‘Primary Care Initiatives’ under section 4.3 House Calls.

A new level of Special Premium payment is being introduced (Level D)

<td>12 or more encounters</td>
</tr>
<tr>
<td>Annual Bonus</td>
<td>$1,500</td>
</tr>
</tbody>
</table>
The Home Visits annual bonus amounts have been increased for level A and B, and a new level D has been added to the Special Premium.

- Level A annual bonus payment has increased to $1500. (previously $1,000)
- Level B annual bonus payment has increased to $3000. (previously $2,000)
- Level C annual bonus payment has increased to $5000. (no change)
- Level D annual bonus payment is $8000 (new)

To achieve level D the physician must achieve a threshold of 32 or more patients served AND 128 or more encounters in order to receive an additional $3000 for a total $8000 payment.

The tracking of home visits towards threshold levels was put on hold and will commence reporting on the August 2013 Remittance Advice (RA). Payments will be made as each threshold level is reached. If threshold levels were reached during the hold period, payment will be made on the August RA.

The Special Premium Report on the RA will show the accumulations towards home visits special premium retroactive to April 1, 2013. Each home visit encounter, as identified through eligible claims with service dates on or after April 1, 2013, will contribute to and report against the thresholds.

Below is the list of Fee Schedule Codes (FSCs) which will be used to identify eligible home visits:

<table>

</tr>
</tbody>
</table>

The new A900A ‘Complex House Call Assessment’ was introduced to the Schedule of Benefits effective April 1, 2013 and was added to the list of eligible fee schedule codes contributing to home visits special premium thresholds for all eligible providers.

A house call assessment (A900/A901) is only eligible for payment for the first person seen during a single visit to the same location. The same service rendered to additional patients seen during the same visit is payable at a lesser fee from the General Listings in the Schedule of Benefits. Services to the second and subsequent patients seen during the same visit at a single location do not count towards the threshold levels for the purpose of calculating the premium.
Thank you for your continued participation in advancing Primary Health Care in Ontario.

All claims inquiries should be directed to your Claims Service Branch Office.
