Distribution Northern Physicians, Hospitals, Clinics and Laboratories		

Subject: **NORTHERN HEALTH TRAVEL GRANT PROGRAM**

The Northern Health Travel Grant (NHTG) Program helps to defray some of the travel costs for residents of Northern Ontario who must travel long distances to receive medically necessary physician specialist services unavailable in their local community.

On November 22, 2004, the Minister of Northern Development and Mines announced the implementation of the 2004 Ontario Government budget commitment to return the definition of Northern Ontario to what it was prior to September 2000. As a result, residents of the District of Muskoka will no longer be eligible to receive travel assistance through the Northern Health Travel Grant (NHTG) Program.

Effective January 1, 2005, the following change(s) will take place:

- § Residents residing in communities within the District of Muskoka will no longer be eligible to receive travel grants.
- § Residents within the District of Muskoka who travelled between November 1, 2004 and December 31, 2004, for purposes of receiving medical specialist services that meet NHTG eligibility criteria, will be allowed to submit their travel grant applications within twelve (12) months from the date of treatment.
- § Travel grant applications for treatment provided before November 1, 2004, must be received by the ministry within six (6) months from the date of treatment.

## QUESTIONS AND ANSWERS

**Q1. What changes have been made to the Northern Health Travel Grant (NHTG) program?**

**A1.** In the 2004 Budget, the Ontario Government made a commitment to return the definition of Northern Ontario to what it was prior to September 2000. With the implementation of this budget commitment, the District of Muskoka is no longer part of Northern Ontario, and as a result, residents of the District are no longer eligible for travel assistance through the NHTG program, effective January 1, 2005.

**Q2. How does this change the current program?**

**A2.** Prior to January 1, 2005, residents of the District of Muskoka were eligible to receive travel grants. Since travel assistance is only available to the residents of Northern Ontario, the only change is that the residents of Muskoka will cease to be eligible for travel grants.

**Q3. When are these changes effective?**

**A3.** These changes will take effect on January 1, 2005. However, applications from eligible applicants for treatment provided between November 1, 2004 and December 31, 2004 will be honoured after January 1, 2005, as long as they are submitted within twelve (12) months from the date of treatment.

**Q4. A patient has an application for a trip made in September 2004 that has not yet been submitted? Can it be submitted now and get paid?**

**A4.** Yes, as long as the application is received by the Ministry of Health and Long-Term Care within six (6) months from the date treatment was provided. The requirement to submit travel grant applications within six (6) months from the date of service was changed to twelve (12) months, effective November 1, 2004.

**Q5. Who is eligible for the NHTG program with the new changes?**

**A5.** The NHTG program is designed to help defray part of the travel costs of Northern Ontario residents who must travel at least 100 kilometres one-way to receive medically necessary insured specialist, or designated health facility services unavailable locally. For purposes of the NHTG, a northern resident is a person who lives in Northern Ontario which is currently defined as the territorial Districts of Algoma, Cochrane, Kenora, Manitoulin, Nipissing, Parry Sound, Rainy River, Sudbury, Thunder Bay, and Timiskaming.

**Q6. Where do I get information about the NHTG program?**

**A6.** We have a Fact Sheet describing the program. It is listed on the Ministry of Health and Long-Term Care's website at:  
[http://www.health.gov.on.ca/english/public/pub\\_menus/pub\\_ohip.html](http://www.health.gov.on.ca/english/public/pub_menus/pub_ohip.html).

**Q7. Where do I get a copy of the NHTG application form?**

**A7.** Application forms can be obtained from your local Ministry of Health and Long-Term Care OHIP office (for office locations see the government pages of the telephone book under Health and then OHIP). You may also obtain a copy of the application form from the ministry's website at:  
[http://www.health.gov.on.ca/english/public/forms/form\\_menus/uap\\_fm.html](http://www.health.gov.on.ca/english/public/forms/form_menus/uap_fm.html).

**Q8. What financial support is available for patients transported by ambulance?**

**A8.** The Northern Health Travel grant is not available for patients transported by land or air ambulance both ways. However, if a patient travels only one-way by ambulance, he or she may be eligible for a one-way grant.

**Q9. Can I refer my patient to any specialist for medical care?**

**A9.** Yes, you can refer your patient to any specialist for medical care, but for purposes of the NHTG program, a specialist is defined as a physician who is certified by the Royal College of Physicians and Surgeons of Canada (RCPSC) as a medical specialist in a recognized specialty. Grant payment is based on the distance to the closest RCPSC-certified specialist capable of rendering the necessary medical care.
