Re: Incorrect Premium Payment Amounts and Payment Reporting
on December 2009 Remittance Advice

A problem has been identified which affected the payment amounts and payment reporting of some premiums from claims that were submitted for processing on November 23, 2009. As a result, the payment amounts and payment reporting on the December 2009 Remittance Advice may be incorrect for affected providers.

The missed premiums include GP Psychotherapy premiums, age premiums, flow-through premiums, and shadow billed premiums that are outside the purview of Primary Care programs. The missed premiums do not include the major premiums payable under Primary Care payment models.

The ministry will be providing the corrected payment with the January 2010 remittance. Please refer to the claim details on the December 2009 Remittance Advice to reconcile the payments.
