Re: New Error Code 'ADF'

For all claims assessed on or after February 3, 2015 where:

- A special visit premium is claimed and a corresponding relevant code had not been claimed; or
- A special visit premium is claimed and the corresponding relevant code is claimed, but is approved at zero by ministry claims payment rules

A new error code '**ADF**' will appear on your Error Report. ADF stands for '*Corresponding Procedure Invalid, Omitted or Paid at zero*'.

This new 'ADF' error code will be added to section 6.4 Error Report Rejection Conditions – Error Codes of the Technical Specifications – Interface to Health Care Systems Manual with the next release date. The Technical Specifications – Interface to Health Care Systems Manual can be found through the following link;

http://www.health.gov.on.ca/en/pro/publications/ohip/docs/techspec_interface_hcsm.pdf.

For any questions, please contact your local Claims Service Branch office using the established procedures.
