

## EDT Service

The chart below illustrates how reports will appear as menu selection options via the EDT Service. The Report Name will appear under the Subject heading and there is a two digit identifier assigned to each report in the file name under the Item heading.

Here's how you decipher the file name **LEES4567.ZIP** shown under the Item heading above:

- L** = First alpha character is a unique identifier referencing the program area (L = Primary Care)
- E** = Next alpha character is the report month (A = Jan, B = Feb, C = March, L = December), in this case E = May
- ES** = Next 2 alpha characters are the unique identifiers for the report (ES = Enrol Patient Summary)
- 4567** = EDT Service Tracking Serial Number
- .ZIP** = File extension ZIP indicates the file is compressed

Therefore, the report file name in the above sample refers to the Enrolment Report Patient Summary for the month of May. Listed below is the two digit identifier for each of the reports.

Report Name	Report Name (as seen in EDT Mailbox Subject Field)	Report Type 2 Digit Identifier
Enrolment Report Patient Summary	Enrol Patient Summary	ES
Outside Use Report(Patients with Signed Consent)	Outside Use	OU
