

Appendix 1: Sample Case Finding/Surveillance Form

Case Finding/Surveillance Protocol for Febrile Respiratory Illness (Questionnaire)

- (i) Do you have new/worse cough or shortness of breath?
If 'no', stop here (no further questions)
If 'yes', continue with next question
- (ii) Are you feeling feverish*, or have you had shakes or chills in the last 24 hours?
If 'no', take temperature; if >38 C, continue with next questions, otherwise stop (no further questions)
If 'yes', take temperature and continue with next questions

*NOTE: Some people, such as the elderly and people, who are immunocompromised, may not develop a fever.

If the answer to both questions (i) and (ii) is 'yes', or the answer to question (i) is 'yes' and the recorded temperature is >38C, Initiate droplet precautions, and notify Infection Prevention and Control

- (iii) Is any of the following true?
Have you traveled within the last 7 days to Mexico or another affected area?
Have you had contact in the last 7 days with a sick person who has traveled to Mexico or another affected area?

Infection Prevention and Control should notify public health by phone when: case has a positive travel history and/or there is a possible cluster/outbreak
