Dental Surgeons		

**Subject: (1) Dental claims from hospitals classified as either A, B, C, or D
(2) Billing the Hospital Consultation Fee – Code T650 in conjunction with ‘Odontectomy’ codes**

(1) The preamble to the Schedule of Dental Benefits states that it is a condition for the performance and for payment of the insured services prescribed under the regulation “that hospitalization in a public hospital graded under the *Public Hospitals Act* as Groups A, B, C, or D (i.e. an acute care hospital) is medically necessary, and that these services be performed by a dentist who has been appointed to the dental/medical staff of the respective hospital”.

OHIP only insures dental services performed in hospitals classified as either A, B, C, or D.

For these claim(s) to be processed and paid, the correct Master Number Index (MNI) number assigned to the respective hospital must be included with each claim submitted to OHIP. Attached for your information is an updated list of all hospitals classified A, B, C, or D in Ontario. In the A, B, C, D list provided, for certain hospitals there are multiple MNI numbers identified beside the respective hospital. The MNI should be selected from those assigned to the hospital as the most appropriate service classification; e.g., day surgery with type code DS. The OHIP claims payment system will recognize any of the numbers listed with a particular hospital site and pay the claim.

Please note: Any insured hospital dental claims with MNI numbers not corresponding to a hospital classified/listed as A, B, C, or D, as per the attached list, will not be paid.

(2) Please be advised in order to remunerate the provision of T650 – Consultation in hospital - on the same day as the extraction, an emergency consultation report or prior approval form indicating either the nature of the emergency, or the exceptional circumstance/medical rationale for same day consultation must be submitted for manual review in support of the claim. Failure to do so will result in the claim not being paid.
