Executive Lead Financial Management & Controllership

Subject: Announcement of Managerial Appointments within the Strategic
Investment Planning Branch

I am very pleased to announce four manager appointments within the Strategic Investment Planning Branch of the Health System Investment and Funding Division, effective April 2, 2007. The following positions will report directly to me in my new role as Director of the branch.

Theresa Nowak has been appointed as Manager, Financial Policies and Procedures.

Theresa has had an extensive and diverse career within the OPS, most recently working with the ministry as Manager of both the Business Planning and Forecasting Unit and the LHIN Funding Project. In her new role, Theresa will be responsible for leading and managing the development, maintenance and communication of financial accountability frameworks, policies, practices, performance standards and tools across the Local Health Integration Networks (LHINs) and other health system programs.

Sherif Kaldas has been appointed Manager, Forecasting and Fiscal Planning.

As the new Manager, Forecasting and Fiscal Planning, Sherif will lead that area in the planning, development, and oversight of strategic long term financing plans and investment forecasting models to predict needs and impacts on the province's plan for

a sustainable health care system. Sherif comes to this role with a substantial health care and financial experience, most recently serving as a Co-ordinator for the LHIN's Funding Project and for the ministry's health economic strategies.

Eva Roszuk has been appointed Manager, System Funding and Allocation Oversight.

Eva has worked within the ministry since 1998. During this time she has acquired a great deal of program and finance-related experience, working with the LHIN Funding Project and the Fiscal Strategies Branch. Eva's new role will be to lead and manage the development of a multi-year strategic funding plan for all the health system sectors.

David McIntosh has been appointed Manager, Program Funding and Allocation Oversight.

In his new position, David will be responsible for leading the assessment of program funding and allocation and developing best practices to support activities across the ministry. David arrives at this position well-prepared, having gained extensive skills and experience within several branches of the ministry - Fiscal Strategies, Strategic Planning and Implementation, and Finance and Information Management.

Please join me in congratulating Theresa, Sherif, David and Eva on their new appointments.
