MEMORANDUM TO: MOHLTC Employees

FROM: John McKinley
Assistant Deputy Minister

RE: Announcement of Director Information Strategy and Policy

I am pleased to announce that **Alison Blair** has been appointed the Director of Information Management (IM) Strategy and Policy in the Health System Information Management Division.

In this important role, Alison will be directing the development and maintenance of the ministry's IM strategies and policies. Also, she will manage and monitor the ministry's IM service relationships with other areas of the ministry and the broader health sector. As well, Alison will be responsible for the preparation and submission of branch strategies and plans related to budgeting, resources, standards and protocols.

Possessing a great deal of skill and experience in IM policy work, Alison comes to this role highly-prepared. Most recently she served as the Team Lead for the Health Reform Team for Information Management at MOHLTC. Prior to that Alison was a Senior Consultant working for the Academic Health Science Centre Project also within the ministry. In both positions Alison demonstrated her expertise in research, strategy development and stakeholder management.

Alison holds a Masters of Business Administration Degree and an Honours Bachelor of Arts and Sciences Degree, both from McMaster University.

Please join me in welcoming Alison to her new role.
