**MEMORANDUM TO:** MOHLTC Employees

**FROM:** Phil Jackson  
Director Strategic Planning and Implementation  
Branch

**RE:** Announcement of Manager, Agency Implementation

---

I am pleased to announce that Natalie Early has been appointed to the temporary position of Manager, Agency Implementation within the Strategic Planning and Implementation Branch, effective April 16, 2007.

Supporting the province's plan to revitalize and rebuild the public health system in Ontario, Natalie will provide strategic direction and leadership for the development and implementation of the proposed Ontario Health Protection and Promotion Agency. This position finds her directly supporting the Chief Medical Officer of Health /Assistant Deputy Minister of Public Health, in strengthening Ontario's capacity to provide expert scientific and technical leadership.

With a proven track record, Natalie brings both talent and ability to this post. Most recently, she was the Manager of the Resources Management Office in the Health System Strategy Division (HSSD). Prior to that, she served as a Manager of Corporate Services at the Ministry of the Attorney General.

For an interim period, Natalie will work for both the Public Health and Health Systems Strategy Divisions as she continues to work on HSSD's organizational design.

I would also like to use this opportunity to wish Liz Walker, who has undertaken great work in the position of Agency Implementation Manager all the very best for her maternity leave.

Please join me in congratulating Natalie on her new appointment.
