

Questions and Answers for Patients: COVID-19 Vaccine Immunization through Ontario Pharmacies

This Questions and Answers document provides information to patients on the availability of COVID-19 Vaccine Immunization through Ontario pharmacies.

Effective March 10, 2021, the Government of Ontario is publicly funding COVID-19 vaccines for immunization at participating pharmacies in Ontario.

1. Who can get a COVID-19 vaccine at a pharmacy?

Individuals in Ontario may be eligible for the COVID-19 vaccine at a pharmacy. Eligibility criteria at the pharmacy is expected to change as COVID-19 vaccine supply becomes available. Currently, the eligible populations for pharmacy COVID-19 vaccine administration will begin with those 60 – 64 years of age.

You are eligible if you are age 60-64 as of the day of vaccination OR, if you will be, or have been, age 60-64 in 2021.

For the current eligibility criteria, please visit the ministry's website: [COVID-19 vaccines for Ontario | COVID-19 \(coronavirus\) in Ontario](#)

2. How do I know if I belong to a priority group targeted for COVID-19 vaccination?

Priority populations are identified based on current public health guidelines and considerations and may change as the pandemic situation evolves. Please contact your local [public health unit](#) and visit the ministry's website [COVID-19 vaccines for Ontario | COVID-19 \(coronavirus\) in Ontario](#) for up-to-date information on who is eligible for these publicly funded pharmacy services.

Please also access the Ontario Government [website](#) for updates to the provincial rollout and population priority groups.

3. Which pharmacy can I get a COVID-19 vaccine at?

You can locate a participating pharmacy at [this link](#). Please call ahead to the pharmacy to book an appointment or to find out their procedures.

When you go to the pharmacy, a valid Ontario health card number is required. However, if you do not have an Ontario health card number you may still receive a publicly funded

COVID-19 vaccine using an alternate identification and providing your contact information to the pharmacy.

Other forms of patient identification may include:

- Birth Certificate
- First Nations ID
- Passport
- MRN (Medical Record Number)
- Out of Province ID
- Driver's License

4. Which COVID-19 vaccine is being offered at pharmacies?

For the publicly funded COVID-19 vaccine immunization, pharmacists will be providing the COVID-19 vaccine that is available according to the provincial vaccine rollout plan.

For more information about COVID-19 vaccines, please refer to Public Health Ontario's website at this [link](#).

5. Are pharmacists prepared to provide COVID-19 vaccines? What quality standards will be followed?

Pharmacists, registered pharmacy students, interns and pharmacy technicians are authorized to administer the COVID-19 vaccine provided they have the appropriate injection training, have registered this training with the Ontario College of Pharmacists (OCP), and are working at a pharmacy that has entered into an agreement with the Ministry of Health.

6. What happens before and after the vaccination at the pharmacy?

The pharmacist will provide details on the process before the COVID-19 vaccine immunization begins, as well as answer any other questions you may have.

Patients, or their substitute decision-makers, will be required to provide consent for the COVID-19 vaccine administration and related data collection. Pharmacy staff will provide you with a written or electronic receipt that you received the vaccine, including instructions for scheduling a second dose, if applicable.

Individuals must keep their receipt for their vaccination in a safe place and bring it to their appointment for the second dose of the vaccine.

Patients are asked to wait for 15 minutes after receiving their vaccine to ensure they are feeling well. Longer waiting times of 30 minutes may be recommended if there is a concern about a possible vaccine allergy.

Individuals are advised to continue to follow the recommendation of public health officials to prevent the spread of COVID-19, which include wearing a mask, staying at least 2 meters from others and limiting/avoiding contact with others outside their household.

7. What happens after receiving the first dose of the COVID-19 vaccine?

After the first dose, individuals are urged to return to the same pharmacy location for their second dose by making an appointment or following the instructions provided by their pharmacist to ensure they receive the second dose at the right time.

- For the AstraZeneca COVID-19 vaccine for example, individuals may be directed to return up to 4 months after receiving the first dose.

8. Where can I get more information?

For more information related to COVID-19 and the service of vaccine immunization, talk to your health care provider or visit the following webpages:
