

Welcome to our home.

Our home is currently free from COVID-19.

At this time, indoor visits are being reintroduced, and outdoor visits are continuing in the designated outdoor visiting area.

You no longer need a recent COVID-19 test for outdoor visits. Before you can attend for an indoor visit, you must have had a negative COVID-19 test within the last two weeks and answer a series of screening questions.

For the protection of our residents and staff, please follow these directions during your visit today. If at any time a guest fails to follow these rules, we will be forced to discontinue future visits:

Clean your hands. When you arrive, clean your hands using hand sanitizer, rubbing thoroughly over all areas of your hands.

Wear a mask. You should bring your own cloth mask or face covering for outdoor visits. We will provide you with a mask if you don't have one and show you how to put it on, if needed. You must continue to wear your mask at all times during the visit.

Maintain physical distance. We know, this one's hard. But for everyone's safety, avoid physical contact during your visit and do your best to stay two metres (six feet) apart at all times.

Clean your hands (again). Before you leave, clean your hands thoroughly using an hand sanitizer. If you're wearing a home-provided surgical mask please dispose of it in the receptacle provided.

Our staff may have additional requests. Your cooperation will help them keep everyone safe. While we know how much your visit means to our residents, our priority will continue to be keeping our home outbreak-free for the safety of our residents and staff. For this reason, if visitors don't follow the above guidance they will not be permitted to return.

We thank you for your cooperation in scheduling one visit per week, to ensure all residents have a chance to receive visitors.

Your visits mean the world to our residents. Thank you for helping make everyone's visit successful and safe.
